

REMARKS

Reconsideration and allowance of the subject application are respectfully solicited.

Claims 65 through 71 are pending, with Claims 65, 68, and 71 being independent. The specification, title, and Abstract have been amended. Claims 65, 68, and 71 have been amended

The Official Action kindly reminded Applicant of the format for the Abstract. Applicant has reviewed the Abstract and revised the same to remove the term “means” mentioned in the Official Action. Applicant submits that the Abstract is in full compliance with the rules. Favorable consideration is earnestly solicited.

The Official Action required that Applicant update the cross-reference to the parent application, and the specification has been so amended to reflect the issuance of the parent application as U.S. Patent No. 6,747,753 B1.

The title was objected to, which objection is respectfully submitted to have been obviated by the amendment thereof.

Claims 65 through 71 were rejected under the judicially-created doctrine of non-statutory obviousness-type double patenting over Claims 1 through 10 of parent U.S. Patent No. 6,747,753 B1. All rejections are respectfully traversed.

The claims, before the amendment, were subject to restriction in the August 28, 2003 Official Action in the parent application, and, even after the amendment, the restriction requirement should be withdrawn. MPEP 804.01; 35 U.S.C. § 121. Also, Applicant submits that the parent patent claims do not disclose or suggest the claimed mounted interpreter/device driver/execution of the operation of the object combination.

Applicant submits that this application is in condition for allowance, and a Notice of Allowance is respectfully requested.

Applicant's undersigned attorney may be reached in our Washington, D.C. office by telephone at (202) 530-1010. All correspondence should continue to be directed to our address given below.

Respectfully submitted,

/Daniel S. Glueck/
